The diagram illustrates the recent 10 periods of lottery results. The grid is organized into four main sections, each representing a different set of numbers (0系, 1系, 2系, 3系, 4系). The numbers are arranged in a 10x49 grid, with the first 10 columns representing the first 10 periods and the remaining 39 columns representing the last 10 periods. The numbers are color-coded: red for winning numbers and white for non-winning numbers. The grid shows the progression of numbers across 10 periods and 49 columns.
