

本期形勢																																																																																																																																																																																																																																																																																																																																																																																																										
1至9之間2和8出線，所以1和3機會還在，但必須等7和9這關；10至20多是冷熱門交替出現，按說這次該讓16和17當假熱，不過走勢可能偏紅 30至29之間號碼24和26破空，與23和27只差一線，可以判定它們的機之間上期說過「最能重新出現的號碼是31、33和37」，出線的可能性是31有在前10期中露臉，能扭轉走勢而爆冷的就是它了；40之後上期指出前中期如41、44」，在41出線後42、44的機會也一併到來。																																																																																																																																																																																																																																																																																																																																																																																																										
旺門號碼						無																																																																																																																																																																																																																																																																																																																																																																																																				
盲門號碼						40 27
