

Figure 1 is a 6x49 grid showing the distribution of 1000 random numbers. The columns are labeled 0系, 1系, 2系, 3系, and 4系. The rows are labeled 1 through 6. The grid contains numbers from 1 to 49, with some numbers highlighted in red and others in black. The numbers are distributed across the grid, with some numbers appearing multiple times. The grid is divided into five vertical sections by blue lines, each labeled with a series name at the bottom. The numbers are arranged in a way that suggests a random distribution across the grid.
