The diagram shows a sequence of numbers 1 through 49 arranged in a grid-like structure. The numbers are organized into five vertical columns, each labeled '0系' at the bottom. The columns are separated by vertical blue lines. The numbers are arranged in rows, with some numbers appearing in multiple rows. The numbers are color-coded: red for most, black for some, and blue for others. The diagram illustrates a specific arrangement of numbers, likely related to a mathematical or combinatorial problem.
