女兒 Fiona 患有兒童糖尿病的克恩 (Mrs. Kern) 指出，雖然 Fiona 得到良好照顧，病情已獲控制，但她只要想起小小年紀的女兒，曾經注射超過 1000 次的胰島素，即讓她覺得心痛。她支持兒童及家庭醫學的研究，希望研究人員能找出女兒不用受苦的最佳辦法。

病人 Gene Pascuzzo 感謝衛生廳長卜佐治（右）推動健康網絡，讓他獲得適當照顧。

The figure displays five 10x10 grids representing daily COVID-19 statistics over time:

- Grid 1 (Oct 24 - Oct 31):** Shows a steady increase in cases from 1 to 31. A red '1' indicates one death on Oct 29.
- Grid 2 (Nov 7 - Nov 14):** Shows a significant jump in cases, reaching 41 by Nov 14. A red '6' indicates six deaths on Nov 14.
- Grid 3 (Nov 21 - Nov 28):** Shows further increases, with cases reaching 41 again by Nov 28. A red '3' indicates three deaths on Nov 28.

In all grids, blue numbers represent total confirmed cases, and red numbers represent total deaths. Cells with a blue 'X' likely represent unreported or pending data for that day.
